# ABOUT US

Graham Heath Construction is one of the UK leading manufacturers of steel framed buildings, with customer service which is second to none. We have been designing, manufacturing and supplying premium steel frame builds to the agricultural, industrial and equestrian industries for over 15 years, with an array of experience which exceeds this.

At Graham Heath Construction, we work in partnership with you on your industrial project to provide a quality finish that meets all your requirements and more. Our team go above and beyond to offer you top quality customer service and to ensure the project runs as smoothly as can be.

Industrial steel framed buildings are a sector

which Graham Heath Construction specialise in, from supply and erecting the steel frames, which are manufactured by us, to completing full design and build projects from ideation to completion. We work with you through each and every stage.

Thanks to our expert and highly-experienced team of Draughtsmen & women, we're able to offer you bespoke industrial builds and cost-effective solutions, which are suitable for your project and meeting your specific requirements.

We work directly with hand-picked partners to supply you with your doors of choice; whether it be roller shutter doors, personnel or appropriate fire doors. Everything you need from rooflights to flashings, we can sort for you too. Unsure which cladding is best? Our team will be able to advise you on every aspect of your build.

We have experience with a wide section of industrial buildings from Warehouses, MOT Test Stations and Retail Units to Workshops and Mezzanine floors. We can help you with every element, including planning drawings for any planning applications. We have manufactured and supplied a vast number of industrial steel framed buildings throughout the UK to large companies and industrial estates, through to private individuals.

## WHAT WE OFFER

### CE MARKED

All our fabricated structural steelwork comply with the relevant European Union standards and regulations.

### 5\* TESTIMONIALS

You only have to look at our glowing testimonials submitted by both loyal and new customers, to see how pleased they are with their builds.

### QUICK LEAD TIMES

We appreciate certain periods of the year are challenging, but we always try our best to offer the best lead times possible.

### TRUSTED UK MANUFACTURER

Over the years we have built strong relationships with many of our customers, who have recommended us to friends, family and colleagues.

### COMPETITIVE PRICES

We aim to remain competitive on price; have you received a lower price elsewhere? Contact our team with your quote and see how we can help.

### NATIONWIDE DELIVERY

We may be based in Cheshire, but that doesn't stop us delivering to the heights of Scotland, down to Cornwall or across the Channel Islands.

# OUR WORK

## INDUSTRIAL PORTFOLIO

At Graham Heath Construction, we understand the runnings of the industrial & commercial world; the need for a cost-effective and premium industrial build is a must.

Whether it is a 'Supply Only', 'Supply & Delivery' or the full works (Supply, Delivery and Construction), we can offer a service for all.

The process is simple: pick up the phone, open your emails, or visit our website and request your fast & hassle-free quotation. Our team will aim to get your free quotation sent across to you the same day.

Mezzanine floor inside a pasteurizing room for dairy products in Holmes Chapel.

Large 126 x 52 x 19ft industrial unit to house a number of gas turbines.

Bespoke building for a 1000m sq. industrial biomass boiler housing unit & wood chip store for the Stobart Group.

## OUR WORK

# CASE STUDIES

**Industrial Biomass Housing Unit &  
Wood Chip Store for the Stobart**

## CASE STUDY

One of our biggest industrial projects was for logistics giant, Eddie Stobart.

The bespoke build was for a 1000m sq. industrial biomass boiler housing unit and wood chip store at Stobart's Widnes site in the North West of England. The project forms part of Stobart's continued commitment to improving its carbon footprint, rolling out energy efficient projects for its group buildings throughout the UK.

This was an extremely exciting project for us as we fought off some stiff competition to win the contract and we are extremely proud of the results. The buildings look fantastic and as a result, we have been asked to quote for more projects. Hopefully this is the start of a great working relationship.

With an ongoing demand for high quality builds throughout their business and with sites the length and breadth of the UK, it is vital that the Stobart Group works with suppliers that they can trust.

George Smith, Contracts Manager for Stobart's comments: "The team at Graham Heath Con-

## TESTIMONIALS

*Great quality, fast and reliable service*

“

Brilliant company to deal with. Very professional and nothing is a problem for them.

I would highly recommend them to any one looking for a quality building.

”

“

We have just received and erected a new building supplied by Graham Heath Construction. From quote to supply the process has been easy, efficient and realistically priced.

”

*Brilliant quality buildings and always put up to very high standards recommend to anyone no matter what size you require.*
